PROJECTS

Gradonix – AI-Powered Subjective Hand-written Evaluation Platform (<https://www.gradonix.com>)

Developed a full-stack AI-based examination system with React, Node.js, and PostgreSQL for automated answer evaluation. Planned AI workflows and implemented role-based authentication, test creation, submission workflows, and result publishing.

Attendance Management System using SpringBoot (<https://attendance-system-nine-mu.vercel.app/>)

Developed a RESTful Attendance Management System using Spring Boot and Spring Data JPA with role-based access for teachers and students. Designed advanced features and normalized database schema with unique constraints and optimized queries for attendance tracking.

PrepWise — AI Mock Interview Platform (<https://ai-mock-interviews-psi-snowy.vercel.app/>)

PrepWise is an AI-powered mock interview platform that lets you generate tailored interview question sets and practice them through a real-time voice conversation with an AI interviewer. It stores sessions and enables a seamless preparation workflow with authentication, interview generation, and voice practice.
